SPECIAL SESSION OF CONGRESS IS LOOMING

SENATE WEARILY STRUGGLES WITH ANTI-WAR PACT

SENATOR JAMES E. WATSON IS
SLATED TO BE NEW LEAD-
ER IN UPPER HOUSE

HE AND SPEAKER LONGWORTH
TRYING TO IRON OUT
DIFFICULTIES

Washington, Jan. 11.—(UP)—A special session of the new congress in the spring appeared inevitable today as the senate struggled wearily on its anti-war treaty debate with the quiet consent of the leaders who want the extra session.

Senator James E. Watson, slated to be new leader in the upper house and Nicholas Longworth speaker of the House have been rushing back and forth between both houses in a futile effort to work out some arrangement whereby a farm bill might be passed before adjournment so the special session could be avoided.

First, President-Elect Hoover declined to make a public statement urging adoption of a farm bill and then the senate became more involved in its lengthy treaty debate, bottling up all legislation including the naval bill which must be passed before a farm measure can even be brought up.

How long the treaty debate will drag on, leaders themselves want to know. With only two more speakers to be heard the debate ordinarily would close by tomorrow night and a vote could be taken then. But some of the reservationists believe their only chance of amending the treaty lies in further delay of the ballot.

Most of the important senate committees have delayed until Monday any further steps in their various investigations. The Indian Affairs committee then will hear witnesses of Indian Commissioner Burke concerning his charge Senator Pine, republican of Oklahoma, and others are conspiring against him.

The judiciary committee then will consider the compromise resolution to authorize a private prohibition investigation by a commission.

The pending report of the Mexican documents committee holding all the important papers in its case as spurious likewise will not be pressed until Monday, Chairman David A. Reed said.

The House continued with the re-appointment bill, many of its committees being occupied with minor matters.

A vote on the reappointment bill, which would result in 17 states losing some of their representatives in the House and 11 others gaining in membership, was to be forced by House leaders today.

ALL HOPE OF ESCAPE FROM GALLOWS NOW RESTS WITH COURTS

Franklin, La., Jan. 11.—(UP)—Hope of escape from the gallows tomorrow for Mrs. Ada Le Boeuf and Dr. Thomas E. Dreher, today rested with the courts, following an announcement by Governor Huey P. Long that he would not again intervene.

"The pair have confessed. That's all that is necessary. I have no intention of again intervening," Governor Long said.

With hope of executive clemency cut off counsel for the condemned pair turned to their plea before the state supreme court today for the appointment of a lunacy commission.

They hoped to have the high court overrule the trial judge, James D. Simon's adverse decision on the appointment of a commission and failing in this they plan to turn to the federal court and ask for a writ of habeas corpus on the grounds that they are entitled to a new trial.

If all legal steps fail, Sheriff Charles Pecot will be ordered to go ahead with final preparations to hang the two in the courtyard here between noon and 3 p. m. tomorrow.

CONFESSES HE STRANGLED, CUT, BEAT PARAMOUR

San Francisco, Jan. 11.—(UP)—Garland Williams, 25, today faced murder charges following complete confession that he strangled, cut and beat his paramour, Lorraine Ambrose, to death, police announced. Williams declared that he had made a death pact with the girl but was unable to carry out his part of it.

State Legislature Adjourns for the Week End

4 LOST AVIATORS NOW PRONOUNCED OFFICIALLY DEAD

Corbeil, France, Jan. 11.—(UP)—Four French aviators who were lost during a search for Gen. Umberto Nobile's expedition last summer were pronounced officially dead today by a civil tribunal here. They were Rene Gullbaud, Emile Valette, Gilbert Bragey and Albert Ouvreille, of the Orly airport near here.

HEALTH OFFICERS STUDY MYSTERY OF FLU GERM

CONFERENCE ASSEMBLES ALL
AVAILABLE MATERIAL ON
DISEASE

TO TRACE MALADY, ORIGIN,
MODE OF TRANSMISSION,
PREVENTION

Washington, Jan. 11.—(UP)—Health officers and scientists from more than 25 states continued their study into the mystery of the influenza germ today at the U. S. Public Health Service.

The conference has convened to assemble all available material on influenza in order to permit additional research on the disease, its origin, mode of transmission and prevention.

Out of the proceedings the scientists and physicians found they knew little or nothing of the disease and the facts they volunteered were controversial.

Dr. C. E. Roseneau, of the May Laboratories, Rochester, Minn., advanced the theory of combatting influenza epidemics by vaccination. He told of successful experiments conducted with vaccine produced from infected persons.

A set of preventive rules was adopted enlarging on suggestions already made by the public health service. It included: avoid crowds; avoid coughing, loud talking and sneezing in public; avoid alcoholic stimulants in case of infection and if infection comes go to bed and stay there three or four days after the fever has passed.

Washington, Jan. 11.—(UP)—The present influenza epidemic will be world wide in scope if it continues to spread similar to previous epidemic, a committee appointed to study process of the disease reported today to health officials and scientists from 20 states gathered here.

The committee estimated duration of the disease at from 5 to 10 weeks in each community and said it apparently had reached its peak in the midwest but continued to spread in the east and New England states.

WITCHCRAFT MURDER CASE GOES TO JURY

Courtroom, York, Pa., Jan. 11.—(UP)—The witchcraft murder case against 14-year old John Curry was placed in the hands of a jury at 10:45 today.

By MORRIS DE HAVEN TRACY
(United Press Staff Correspondent)
York, Pa., Jan. 11.—(UP)—John Curry, 14, second defendant in the witchcraft slaying of Nelson Rehmer, 58-year-old recluse, was found guilty of first degree murder by a jury today. The jury recommended life imprisonment.

The Curry jury began its deliberations at 10:45 a. m. and was ready to report at 12:30 p. m. It delivered its findings when Judge Ray P. Sherwood returned to the court house after lunch.

STEAMER IN S O S SAYS BOILERS BLEW UP

Brest, France, Jan. 11.—(UP)—Coastal wireless stations reported picking up an S. O. S. today from an unidentified steamship which reported her boilers had exploded.

The vessel failed to give name, position or nationality and was silent after the brief message.

The tug Iroise was held in readiness if the steamer communicated by radio again.

A dense fog lay over the channel and the Atlantic coast and shipping was seriously handicapped.

Ore Output to be Curtailed in Minnesota Unless Reduced State Tax Rate Is Ordered

IRON ORE MEN MAKE PLEA FOR LOWER TAXES

COMPANIES MAY BE FORCED TO
LIMIT PRODUCTION TO HIGH
GRADE ORE

LOW GRADE MAY BE IMPORTED
FROM CUBA AND
CHILE

St. Paul, Jan. 11.—(UP)—Representatives of leading Northern Minnesota mining companies today were on record as predicting curtailment of ore output unless a reduced state tax rate is put into effect.

W. D. Bailey of Duluth, representative of the iron range mining companies, appeared yesterday before the Minnesota legislative committee on local indebtedness to plead for a lower rate of taxes. Iron range towns and cities, he said, are squandering mine tax money, which represents a 50 per cent greater outlay than is paid as wages for labor.

George R. Martin, Minneapolis, vice president of the 15 mining companies controlled by the Great Northern railroad, declared that the companies would be forced to limit production to high grade ore.

"If the present rate of taxation is continued," Martin said, "even the small tonnage of low grade iron now mined will remain underground. Importation from Cuba and Chile will follow."

Bailey scored present tax rates as "fostering dissipation and waste of Minnesota's natural resources." Large open pit mines are the only ones that can operate with profit under the present rates, he concluded.

With Bailey in his appearance before the legislative committee was F. J. Webb, also of Duluth, general manager of the Northern Ore Mines of the Republic Iron & Steel Company.

LYON MAY TRY NON-STOP FLIGHT BOSTON TO ENGLAND

Boston, Jan. 11.—(UP)—Lieutenant-Commander Harry Lyon, who flew to Australia in the Southern Cross, may attempt a non-stop flight from Boston to England next spring, he announced here. He said a \$100,000 tri-motored plane is now being built for him at Pasadena, Calif.

GENERAL BOOTH WILL NOT GIVE UP WITHOUT A FIGHT

London, Jan. 11.—(UP)—Gen. W. Bramwell Booth, commander-in-chief of the Salvation Army, will not relinquish without a fight the office he has held since 1912, it was indicated today.

A deputation of seven aimed today to visit the general at his Southwold, Suffolk, cottage and acquaint him with the high council's decision yesterday to ask his resignation. The general, who is unable to leave his home because of illness, will refuse the request, London newspapers agreed today.

Gen. Booth's refusal to resign would be based on conscientious grounds, backed by his physicians' opinion that he will be able later to resume his duties, the Daily News said it understood from well-informed sources.

KING GEORGE RESTS QUIETLY

NO CHANGE IN CONDITION, IS
REPORT FROM BUCKING-
HAM PALACE

London, Jan. 11.—(UP)—King George passed a quiet night and there is no change in his condition, it was announced officially at Buckingham Palace today. The announcement continued the optimistic reports on the King that have been issued daily for more than a week.

CONGRESS TODAY

(By United Press)

Senate
Anti-war treaty deadlock continues. Rules committee considers proposals to revise senate chamber.

Commerce committee hears the Mississippi river commission.

House
Continues consideration of reapportionment.

Ways and means committee hearing on tariff revision.

Foreign affairs committee hearing on calendar simplification.

Merchant marine committee hearing on radio.

Flood control committee hearing on Florida.

Public lands committee meeting on national park policy.

BIRKENHEAD IN REMARKABLE PREDICTIONS TODAY

48-HOUR DAY, LABORATORY BABIES, SYNTHETIC FOOD-STUFFS

150-YEAR AGE LIMIT FOR HUMANS, 2-HOUR WORK DAYS

New York, Jan. 11.—(UP)—A 48-hour day, laboratory babies, synthetic food-stuffs, a 150-year age limit for humans and two-hour work-days, are among the predictions made by Lord Birkenhead, British statesman, in an article on "what the world will be 100 years from now" in the February Cosmopolitan magazine.

The 48-hour day would be accomplished, according to Lord Birkenhead, "by utilizing tidal energy to diminish the speed of the earth's rotation."

In discussing the laboratory baby, Lord Birkenhead, writes: "The results of much research show that the connection between a mother and her growing child is purely chemical; there is no valid reason why one day biologists should not be able perfectly to imitate that chemical connection in the laboratory."

Humans will be able to live 150 years, he writes, because by 2029 biologists will have learned the secrets of the living chemistry of the human body—or at least enough of it to achieve startling results.

"Rejuvenation will be an ordinary and well recognized matter of a few injections at appropriate intervals," he says.

RECORD ATTENDANCE FOR N. W. AUTO SHOW

A record attendance is forecast by officers at the Northwest Automobile show and Annual Merchants week meeting in the Twin Cities February 2 to 13. E. E. Nelson, passenger traffic manager of the Northern Pacific Railway, announced an open rate of a fare and one-half for the round trip from all points on its lines in Minnesota, North Dakota, Wisconsin, Manitoba and Montana to St. Paul or Minneapolis. Tickets will be sold February 3 to 7, inclusive, and also on February 10, with final return limit to reach starting point not later than midnight of February 16.

GERMAN STEAMER IN COLLISION, THEN RUNS AGROUND

St. Margaret's Bay, England, Jan. 11.—(UP)—The German steamer Dione ran aground near Dover early today after colliding with the Swedish steamer Osmed in a dense fog. The Dione, a vessel of 1,107 tons, was damaged severely. The Osmed also was damaged, but proceeded on its voyage. It was a 1,526 ton ship.

FLOW OF LIQUOR FROM CANADA TO U. S. CONTINUES

4 DAY CONFERENCE ARRANGED
BETWEEN UNITED STATES
AND CANADA

DISCUSSING MEASURES TO STOP
LEAKAGE OVER THE
BORDER

Ottawa, Ont., Jan. 11.—(UP)—Flow of liquor from Canada into the United States apparently is to continue.

A four day conference between Canadian and United States representatives with a view to halting liquor leakage into the states has ended with a statement tacitly admitting that nothing definite had been done.

Canadian representatives according to a statement last night, extended the only hope for a possible solution in the future by promising to submit to their government the United States' proposal to refuse clearance papers for liquor shipments.

The statement contended "commercial" smuggling from the United States into Canada had been reduced to a negligible amount due to augmented border patrols.

The conference was considered of value, however, as a means of "eliciting a cordial and frank exchange of helpful information as to the situation on both sides of the border."

Headed by its chairman, Gen. F. C. Billard, commander of the United States coast guard, the United States delegation left for Washington yesterday.

INCREASE IN ENFORCEMENT OF PROHIBITION

Washington, Jan. 11.—(UP)—An increase of \$25,000,000 for prohibition enforcement next year was authorized in the first deficiency appropriation bill reported today by the senate appropriations committee.

GOVERNOR IS OPPOSED TO HIGHWAY BONDS

IS EMPHATICALLY AGAINST IS-
SUE FOR \$20,000,000

APPARENTLY FINDS FAVOR
WITH MAJORITY OF THE
LEGISLATORS

By HECTOR PERRIER
(United Press Staff Correspondent)
St. Paul, Jan. 11.—(UP)—The forty-sixth Minnesota legislature today was adjourned over the weekend, the all-important first sessions passed into history.

Unquestionably the most outstanding occurrence in the first week was the biennial message of Governor Theodore Christianson in which he announced his emphatic opposition to the \$20,000,000 highway bond issue.

The governor's firm stand against additional bonded indebtedness and increased taxation apparently found favor with the majority of the legislative members and it is believed that the fight for the bond issue will be dropped.

Second perhaps in importance was the presentation of the biennial budget by the department of administration and finance which recommends appropriations, approximately half of the recommended appropriations or, \$20,345,960 would go toward the state's educational institutions.

During the four-day meetings 19 bills were introduced in both branches of the legislature, 10 of which were in the senate. A sharp fight was waged over the seating of Senator Lennon of Minneapolis because of a conviction for prohibition law violation, Senator Lennon won.

Among the nine House bills was one by Rep. Dunn, Pelican Rapids, which would impose a tax on cigarettes and cigaret papers sold in the state.

Rep. Dunn declared that the bill if made a law would enrich the state by \$2,000,000 annually.

Meanwhile committees were active. Several new committees were formed, notably one for aviation. Senator Sullivan, Stillwater, chairman of the interim committee on bank taxation, recommended that a fight be waged to bring about an amendment to the federal banking laws which would permit state taxation of National banks.

At a meeting late Thursday of the House interim committee on local indebtedness, taxation, and finance, representatives of mining interests in Northern Minnesota declared that the mines were overtaxed and appealed for a reduction. It is believed that mine owners will make a strong fight to have taxes lowered during the present legislature.

Both branches of the legislature will meet for brief sessions Monday night. Little is expected to be done then but on Tuesday Lieutenant-Governor W. I. Nolan, speaker of the Senate, and Rep. John A. Johnson, speaker of the House, are expected to announce committee assignments.

Activity at the state capitol is expected to be increased next week and the flood of bills anticipated at the opening of the session will no doubt start off flow into the legislative hoppers.

MYSTERIOUS BLAST IN KANSAS CITY

Kansas City, Mo., Jan. 11.—(UP)—Windows in neighboring structures were shattered and adjoining houses were damaged by fire as the result of a mysterious explosion and fire that early today damaged a 2-story brick building said to be unoccupied. Four persons, living in a nearby home, were cut by broken window glass.

RAINBOW IN WINTER SKY EXCITES ST. PAUL

St. Paul, Jan. 11.—(UP)—That "rainbow" we saw in the cold sky today did not mean that there will be no more snow, weather men said, because it was no rainbow at all.

The phenomenon was a solar halo. The 22 degree halo is caused by the reflection of the sun's rays on the ice crystals in the clouds.

Photographed immediately after landing of the Question Mark, grimy but joyous—L to r, Sergeant Hooe, Lieutenant Olmstead, Lieutenant Halverson, Captain Eaker and Major Spatz. The picture was sent over telephone wires from Los Angeles.

STELL ANDERSEN IN RECITAL

Noted Pianist to Play for Brainerd Musical Club
Saturday

BUSINESS SESSION FOLLOWS

Musical Club Membership to Vote on Question of Disbandment

Miss Stell Andersen, noted pianist, will appear in recital for the Brainerd Musical club at Elks temple tomorrow afternoon. This program will be given:

- I. Three Intermezzi—
E flat minor, op. 118
A flat major, op. 76
C major, op. 119
Ballade G minor, op. 118.....Brahms
- II. Sonata B minor.....Liszt
- III. Prelude F sharp minor.....Chopin
Two Etudes—
A flat, op. 10
E minor, op. 25.....Chopin
Scherzo B minor.....Chopin

After the above program the members of the Musical club will be asked to remain and vote on whether or not they wish the club to disband. This doesn't mean that the board wishes a mere expression of opinion. It wants to find out how many of the present members will not only buy membership tickets, but will use them and will urge their friends to do likewise. Consequently, every vote in favor of continuing the club should mean financial support and assurance of an audience for visiting artists. Brainerd has had an enviable reputation in the past among musical artists. They like to come here because they are sure not only of a good audience, but of a greater measure of musical appreciation and discrimination than they find in most cities of the size of Brainerd. But with the exception of the opening concert given by the Russian Cossack chorus, this has not been true this year. A vote to continue the club should, therefore, be equivalent to a pledge to buy a membership ticket and either use it or see that it is used at each monthly meeting.

The Dispatch said, in an appreciative editorial Wednesday evening, "Its activities in the past have certainly contributed much to the cultural and musical life of the city and to civic betterment." How true this statement is, only a study of the minutes of the board meetings for the past 25 years would reveal. But memory furnishes a few examples of how a certain civic committee of the club collected data and met with a committee from the city council to urge an ordinance that would secure pure, clean milk for our city; of an

educational committee that promoted the idea of Parent Teachers organizations; of several committees that worked early and late for better support for our public library that would enable daily service; of both material and moral support given for play-grounds, Boys band, beautifying the library grounds, juvenile books, promotion of public health, charity and general welfare measures. In fact, there has scarcely been a worthy civic undertaking during the last 25 years that the Musical club has not supported.

Because of the training its members had had in committee work and in the transaction of business, it was able to furnish leaders for the women's activities during the war. These women were able to do effective work in the Red Cross, the Food Administration and in the sale of Liberty bonds because they had had training in organizing workers. But, when all is said and done, the real reason for being of the Musical club is to furnish high class musical entertainment and to encourage the study and appreciation of music. If he radio has made this unnecessary any longer, it is better to realize that act and disband at once instead of giving a slow, lingering death.

40TH WEDDING ANNIVERSARY

Rev. and Mrs. C. J. Nygren Are Given Pleasant Surprise Last Night

PRESENTED WITH A PURSE

Friends and Members of Swedish Bethany and Thomastown Churches

A number of friends and members of the Swedish Bethany church gathered at the home of Rev. and Mrs. C. J. Nygren, 904 South Seventh street, for their regular prayer meeting last evening. After this service, Rev. P. J. Fallquist, turned the meeting into a surprise party for Rev. and Mrs. Nygren, the occasion being their fortieth wedding anniversary. They were married at Brantford, Kansas, January 10, 1889.

Rev. and Mrs. Nygren have made their home here for the past year and a half since he retired from the ministry, his last charge being the church at Thomastown, near Staples, where he was pastor for 26 years.

Friends from the Thomastown church joined with the Bethany church in presenting them with a

purse of \$66 as a token of their appreciation for the work they have done in this territory.

Mr. Nygren is just recovering from an attack of the flu, and the youngest son, Phillip, is gradually recovering from a serious operation at the Swedish hospital in Minneapolis, and their friends took advantage of their fortieth anniversary to cheer them in their trouble.

Friends from Thomastown were prevented from attending the meeting by the snowstorm, although two of their sons, Arnold and Rudolph Nygren of that place, were present, having spent several days with their parents here.

ORDERS PAYMENT OF \$150,000 LOAN

State Investment Board Approves Loan for Construction of Brainerd High School

The State Investment Board yesterday ordered the payment of \$150,000 in a loan to Brainerd for school building purposes.

The money will be used to assist in the payment of the cost of the construction of the new high school to replace the one destroyed last year by fire.

TWO RUNAWAYS RETURNED

Carl Jacobson Locates Two Youths Who Escaped From Red Wing New Year's Day

Two youths, Walter Schulz of Cohasset, Minn., and John Adelman, St. Cloud, who escaped from the school at Red Wing on New Year's Day were returned to Red Wing yesterday from Brainerd a few hours after they had been arrested by Carl Jacobson, special N. P. officer.

The boys came to Brainerd yesterday noon, riding "the blinds" on the passenger train. They jumped from the train as it crossed Sixth street, running down Sixth street to downtown.

Mr. Jacobson who noticed them get off the train followed them. Taken into custody for questioning the boys admitted having left the institution on New Year's Day. They stated they had been travelling through Iowa and Minnesota since the first of the year.

Important to Know

Nothing is more fatal for a speaker than ignorance of how to lose his temper.—Arthur Ponsonby, M. P.

B. B. M. A. ELECT OFFICERS FOR 1929

Wm. Nelson Re-elected President, Louis Hostager, Vice President

D. C. GRAY, TREASURER

Report of Miss G. P. McCabe, Secretary Shows Successful Year in 1928

With the exception of treasurer all present officers of the Brainerd Business Men's association were re-elected at the annual meeting of the association, last evening.

Officers follow:

President—Wm. Nelson.
Vice President—Louis Hostager.
Directors—John M. Bye, W. J. Hall and Dr. R. A. Belse.

D. C. Gray, the new officer, was elected third director and treasurer. On motion of W. J. Hall and F. H. Gruenhagen it was decided that the Association books be audited for the past year by a committee of three, D. C. Gray, chairman, the other two members to be appointed later by the president.

Discussion was had pro and con as to placing the Association on a commission basis.

The next meeting will be held in March, the date to be set by the directors.

On motion of Mr. Carlson and W. J. Hall the chair was instructed to appoint a committee to recommend revision of bylaws in regard to dues and to report at the next general meeting. The chair appointed the following committee: O. A. Peterson, F. H. Gruenhagen, V. E. Schedin, Harry Carlson and D. C. Gray.

The secretary, Miss G. P. McCabe, reported that more credit ratings had been given to the members in this year than in former years on the debtors applying for credit at their stores. The office has 2500 ratings on file at this time, she reported.

Miss McCabe further reported that

ST. FRANCIS STUDIO
Call 642

\$13,472.56 had been collected by the Association which exceeded last year's collections by \$2,672.56.

Twenty of the Business Men's association contracts were made with debtors totalling \$5,849.39 which included 164 creditors. These contracts have proven very successful in helping the debtors pay out and have lessened the amount of bankrupts in Brainerd, the secretary stated.

Reproducing Drawings

Drawings can be reproduced by any of the three processes of printing. These three processes are relief printing, intaglio printing and planographic printing. In relief printing the design is raised above the blank parts which do not print. In intaglio printing the design is etched below the surface of the blank parts which do not print. In planographic printing the design to be printed and the blank parts are on a level surface.

Hall's Music House

Are You Run Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just take a teaspoonful of Tanlac before meals.

Mr. Edward D. Lavan, of 300 E. Broadway, Waukesha, Wis., says: "My stomach was always out of order. I was nervous and had lost considerable weight. Tanlac surely put me in good condition. Now I can eat anything and have gained 38 lbs."

Tanlac is wonderful for indigestion and constipation—gas, pains, nausea, dizziness and headaches. It brings back lost appetite, helps you digest your food, and gain strength and weight. It contains no mineral drugs; it is made of roots, barks and herbs, nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

STELL ANDERSEN IN RECITAL

Noted Pianist to Play for Brainerd Musical Club Saturday

BUSINESS SESSION FOLLOWS

Musical Club Membership to Vote on Question of Disbandment

Miss Stell Andersen, noted pianist, will appear in recital for the Brainerd Musical Club at Elks temple tomorrow afternoon. This program will be given:

- I. Three Intermezzi—
E flat minor, op. 118
A flat major, op. 76
C major, op. 119
Ballade G minor, op. 118
- II. Brahms
Sonata B minor, Liszt
- III. Chopin
Prelude F sharp minor, Chopin
Two Etudes—
A flat, op. 10
E minor, op. 25
Scherzo B minor, Chopin

After the above program the members of the Musical club will be asked to remain and vote on whether or not they wish the club to disband. This doesn't mean that the board wishes a mere expression of opinion. It wants to find out how many of the present members will not only buy membership tickets, but will use them and will urge their friends to do likewise. Consequently, every vote in favor of continuing the club should mean financial support and assurance of an audience for visiting artists. Brainerd has had an enviable reputation in the past among musical artists. They like to come here because they are sure not only of a good audience, but of a greater measure of musical appreciation and discrimination than they find in most cities of the size of Brainerd. But with the exception of the opening concert given by the Russian Cossack chorus, this has not been true this year. A vote to continue the club should, therefore, be equivalent to a pledge to buy a membership ticket and either use it or see that it is used at each monthly meeting.

The Dispatch said, in an appreciative editorial Wednesday evening, "Its activities in the past have certainly contributed much to the cultural and musical life of the city and to civic betterment." How true this statement is, only a study of the minutes of the board meetings for the past 25 years would reveal. But memory furnishes a few examples of how a certain civic committee of the club collected data and met with a committee from the city council to urge an ordinance that would secure pure, clean milk for our city; or an

educational committee that promoted the idea of Parent Teachers organizations; of several committees that worked early and late for better support for our public library that would enable daily service; of both material and moral support given for play-grounds, Boys band, beautifying the library grounds, juvenile books, promotion of public health, charity and general welfare measures. In fact, there has scarcely been a worthy civic undertaking during the last 25 years that the Musical club has not supported.

Because of the training its members had had in committee work and in the transaction of business, it was able to furnish leaders for the women's activities during the war. These women were able to do effective work in the Red Cross, the Food Administration and in the sale of liberty bonds because they had had training in organizing workers. But, when all is said and done, the real reason for being of the Musical club is to furnish high class musical entertainment and to encourage the study and appreciation of music. If he radio has made this unnecessary any longer, it is better to realize that act and disband at once instead of ying a slow, lingering death.

40TH WEDDING ANNIVERSARY

Rev. and Mrs. C. J. Nygren Are Given Pleasant Surprise Last Night

PRESENTED WITH A PURSE

y Friends and Members of Swedish Bethany and Thomastown Churches

A number of friends and members of the Swedish Bethany church gathered at the home of Rev. and Mrs. C. J. Nygren, 904 South Seventh street, for their regular prayer meeting last evening. FRIDAY, JANUARY 11, 1929

MINNESOTA IS NOT A POOR STATE

MINNESOTA is not a poor state, by any means, says the Ortonville Independent in this editorial:

No western farmers are as prosperous as the farmers of Minnesota. The Federal Reserve Board, October 18, 1928, reports for the state of Minnesota: (1) a steady increase in country bank deposits, since 1921; (2) a continuous decline since 1920 in customers' borrowings from country banks. The special census of the United States Department of Agriculture for 1925, showed a smaller percentage of farms mortgaged in Minnesota than in any of the neighboring states, Wisconsin, Iowa, North Dakota, South Dakota, Nebraska and Montana. The total actual amount loaned on all farm mortgages in Minnesota (as estimated by the Federal Land Bank, October 17, 1928) was approximately \$9,000,000 less in 1928 than in 1925. Applications for Minnesota Federal Land Bank loans, for the nine months from January 1, 1928, to October 1, 1928, were approximately 40 per cent less than applications for the same period in 1926 and in 1927.

Total 1928 cash income of Minnesota farmers (representing income from sales, and not including any crops consumed on the farms) was estimated, October 1, 1928, by the Minneapolis Federal Reserve Board and by F. H. Peavey and Company, as totaling \$405,000,000.

The United States Census Bureau reports the total value of Minnesota manufactured products as \$1,101,855,641. Of this total, the value added by manufacture was \$331,131,642. The corporations of Minnesota, in the year ending June 30, 1928, paid, on their net profits, federal income taxes totalling \$18,247,602.

There are 900,000,000 tons of high grade iron ore left in the known deposits of Minnesota.

Minnesota has one registered motor vehicle for every 3.7 inhabitants. Gasoline tax receipts for 1928 will exceed \$5,000,000.

The American Federation of Labor, for the first six months of 1928, reports only three large cities out of 25 with less unemployment than existed during that period in Minneapolis and St. Paul.

The Minneapolis Civic and Commerce Association survey of 1926 indicated that, in that one year, the people of Minnesota spent \$53,475,460 for amusements.

A study made in August, 1928, by the Minneapolis Journal shows an annual expenditure, in the state, for cosmetics of \$5,000,000.

Minnesota's lack of a large number of very wealthy citizens is offset by the absence of poverty. The United States Census Bureau's 1925 record of paupers per 100,000 population gave the following figures:

Ohio, 114.2; Indiana, 104.6; Illinois, 95.7; Michigan, 83.9; Iowa, 69.8; Wisconsin, 63.8; Minnesota, 41.8.

RESTRAIN YOURSELF

IN these days of flu and colds and sneezing and coughing, it behooves one to follow ordinary health rules. If you must cough or sneeze at church or theater or in any other assemblage, seek to restrain yourself and muffle the eruption behind a handkerchief screen.

We do not know how the flu and cold germ is scattered, but we believe that unrestrained coughing and sneezing certainly must scatter effluvia in the air.

Loudly clearing your air and head and nose passages at the expense of some unfortunate neighbor is not a charitable act. Exercise care in expectorating. Exercise the same care with handkerchiefs and other articles used. You may have the flu germs and by not being careful will infect yourself in other places as well as infecting others.

We are no scientist or doctor on flu, but we believe a few common sense rules of health and cleanliness will do something to check the spread of the disease. Unlike some diseases, one siege of it is no immunity against another attack.

The other day a noted surgeon called a flu conference at Washington to combat the malady and was unable to attend because the germ had picked on him. The conference was hardly a cheerful one and reminded one of the hay fever sufferers' conventions which meet at Duluth and between sneezes discuss their malady.

FULL TIME SENATOR WANTED

A FULL time senator is wanted in Minnesota, says the Murray County Herald editorially and we reprint:

Senator Thomas Schall, who has been hibernating in the National Capitol for the past four years, with re-election only two years away, is again trying to show signs of life.

Every move he makes now, is premeditated. He is bidding for votes.

During all the time the farmers of the northwest were clamoring for relief, his stentorian voice was silent. But, now, Oh, gracious, his every thought is of the farmer. He has even gone so far as to sponsor a bill to appropriate a great sum of money to experiment in making print paper out of corn stalks so that the farmer might get a higher price per bushel for his corn.

The farmer voter will not swallow this eleventh hour support. They want a Senator who will represent them six years out of six, and not one whose only thought of them is when he is up for re-election.

It may be a little early, but we predict that Governor Christianson will be the full time Senator two years from now.

CRITICISM OF YOUTH

CRITICISM of young people is not a modern pastime, as many suppose, says the Litchfield, N. D., Bulletin.

In every age the spirit of youth has run counter to a small but vociferous element of its elders who lack the perception, or the patience, or both, to ascertain what really is working in the noodles of maturing boys and girls. Therefore, instead of trying to help the youngsters work out their multitudes of youthful problems, folks knock, thus following the lines of the least resistance. The young people of today will be running the world tomorrow and we confidently expect an improvement.

It is reported that Dr. A. M. Stimson of the United States public health service has commenced a study of influenza. He should not feel lonely in his endeavors, for every flu sufferer is doing the same thing.

It takes two to make a bootlegger, says the Kansas City Star.

Dame Fashion Smiles

By Grace Jewett Austin

Grace J. Austin.

Among the many bits of advertising tumbling out of her mail, Dame Fashion had to smile over a sentence that stated at her: "What the well-dressed car is wearing." It was just one of the little straws that show how important wearing apparel is, not only for men and women and children, but for many inanimate objects as well.

Dame Fashion had genuine pleasure in looking at these soft and artistic plaids in woolen lap robes which the "well-dressed car" was supposed to be wearing. "Dame Fashion," remarked a friend, "I thought about you and your appeals to wear red the other night when I was at a Sunday night supper party. There were eight women present, and seven out of the eight wore red dresses!" The same day Dame Fashion saw what purported to be a representation of the "Last word in Paris fashions," and of the four gowns shown, one was a Worth dress of red wool material trimmed with red beads and blue taffeta—almost patriotic enough for a Goddess of Liberty costume; another was of red broadcloth trimmed with mink, while the third was a lacquer red evening gown of transparent velvet, trimmed with red beads. Another student of fashion has declared in print that there is a vogue for red, but it is expensive and tiring.

As for being "tiring," that is probably a personal feeling on the part of the writer. Red objects and garments are as good as a tonic to Dame Fashion. While to declare a thing "expensive" is an excellent way to make good American citizens seek it out. But just as a color, red should not be so highly priced. Most of the flannels that kept our pioneer ancestry warm were of that color, and for many years the British government put all its soldiery into red coats. Perhaps the expense may come because this nice kind of scarlet fever is quite contagious; that is, a red dress likes to catch a red hat, some red beads, and perhaps earrings, or even a ruby ring! Dress is becoming such an art that it will probably not be long before more and more of the accepted art terms will be used in connection with gowns. Dame Fashion thought about this one day of late when her eyes rested with pleasure upon a young woman, and it seemed as though she were wearing a costume with a clear "motif," as the music lovers say.

It was a graceful gown of beige crepe, and was worn with hose to match and pumps of shining black patent leather. The wearer's becoming cap-shaped hat was of black velvet, with a shining side ornament. But how was the motif carried into the gown? It sounds simple to describe it, but it was remarkably effective, and unified the whole costume. Down from one shoulder descended a short row of rather small black velvet buttons, and the whole thus gave a restful feeling of completeness. "But Dame Fashion, I can't always sew buttons on my gowns to match my hat and shoes!" somebody complains. And right there is where the function of costume jewelry comes in. For a necklace of jet beads would have obtained the same effect, though not in such an original manner. (©, 1928, Western Newspaper Union.)

NEURITIS TROUBLE YIELDS TO SARGON

After Long Suffering O'Toole Turns To New Medicine With Wonderful Results

"When I bought my first bottle of Sargon it was one of the best moves I ever made in my life, and I want to say to everyone suffering like I did not to give up until they have taken this wonderful medicine.

This statement made by B. J. O'Toole, 14 North 6th St., Minneapolis, well-known employee of the Catholic Bulletin, marked the addition of another name to the long list of Sargon enthusiasts in Minneapolis.

"Yes, sir; Sargon overcame neuritis and other troubles for me so quick it was amazing," said Mr. O'Toole. "Why, sometimes this neuritis was so bad it simply felt like a sharp knife sticking in my shoulders. I couldn't raise my hands without suffering the most intense pain. Many a night I went almost sleepless for it was impossible for me to get in a comfortable position where I could rest easy. Mornings I would be so tired out and nervous I felt like I hadn't been to bed at all. Then on top of the neuritis my digestion got so bad I was actually afraid to eat for it always meant suffering afterward.

"I did not look like I was ever going to find anything to help me, for I tried one thing after another for two years, and instead of getting better I was getting a little worse all the time. I was so discouraged that I did not believe any medicine made would benefit me, but Sargon proved I was dead wrong. The medicine took right hold and began to make a new man of me from the ground up. It drove the neuritis out of my system, and when my head touches the pillow now I sleep right through till time to get up. My nerves are steady as a rock and there is not a man in Minneapolis has a better appetite or digestion than I have now. I have gained six pounds in weight and never felt better in my life. You can tell everybody for me that Sargon does what is claimed for it."

MORE "DAKOTANS" IN CALIFORNIA

Delores Morganroth didn't fear job-hunting when California lured her. Her training at Dakota Business College, Fargo, made it easy to get a good position with the Longview Fiber Co., San Francisco. B. J. Rubel, former D. B. C. man, was recently made manager of Crescent Jewelry Co., established at San Bernardino, by Isadore Horwitz, of Fargo.

You make good anywhere with D. B. C. ACTUAL BUSINESS training (copyrighted—unobtainable elsewhere.) "Follow the Successful" Feb. 4-11. Write F. L. Watkins, Pres., 806 Front St., Fargo.

olis has a better appetite or digestion than I have now. I have gained six pounds in weight and never felt better in my life. You can tell everybody for me that Sargon does what is claimed for it."

Sargon may be obtained in Brainerd from H. P. Dunn; and in Pequot from A. S. Rasmussen.—Adv.

JOHN GILBERT and FRANK REICHER.

"THE MASKS OF THE DEVIL"

Modiste Shop of 1930 Filmed

A small fashion show, that has been the envy of every fashionable modiste that saw the picture, is one of the many exquisitely staged sequences in John Gilbert's new starring production in Metro-Goldwyn-Mayer, "The Masks of the Devil," now at the Lyceum theatre.

The sequence was filmed in a specially designed set of ultra modern mode, made by Cedric Gibbons, head of the Metro-Goldwyn-Mayer art department. Gibbons designed the set for the ideal of what the artistic fashionable modiste's shop of 1930 will be. He included ultra-modern lighting, furniture and decorations.

Smith in Another Message to Nation Broadcast Wednesday

New York, Jan. 11.—(UP)—Alfred E. Smith, democratic candidate for president in the last election, will deliver another message to the nation from WEAF and 37 associated radio stations in the Red network of the National Broadcasting Company Wednesday night. The subject will not be announced in advance, the Democratic National committee said.

Old Fort Restored

The construction of the original Fort San Carlos de Barrancas, Fla., was begun in 1838 under the direction of Maj. William H. Chase, corps of engineers. A new and more formidable fort has been built behind the original works without interfering with the old fortifications.

Sound Perception

The bureau of standards says that the length of time that a sound will remain perceptible after the source of sound has ceased operating depends on several factors: The volume of the sound, the nature of its interior finish and the intensity of the initial sound.

John Hancock's signature

You have heard of him, of course. Everyone has. His signature is the first affixed, the most boldly executed, on the Declaration of Independence.

When that great document was drawn up and ready to sign, there was a pause. It was a moment of grave importance to all present. By placing their signatures on this paper, they would put themselves on record as avowed rebels against the British crown—a hanging offense. At this juncture John Hancock stood up, seized the pen, and wrote his name on the parchment as large and black as he could. By this act he advertised to the world that he stood ready to make any sacrifice—even life itself—in support of his principles and ideals. His signature afforded a permanent record of his good faith.

Advertisers who go to great expense to place before the public printed announcements of their products are offering similar evidences of good faith, equal guarantees of fair dealing. Advertised goods are reputable, dependable, vouched for by manufacturers and dealers who are known and respected. By reading the advertising in this paper you will acquaint yourself with the safest and most economical sources of supply, the products which will serve you best and longest. Advertisements are the surest index to efficient buying. Do not neglect them.

Advertising is the guarantee of good faith

FRIDAY, JANUARY 11, 1929

MINNESOTA IS NOT A POOR STATE

MINNESOTA is not a poor state, by any means, says the Ottumville Independent in this editorial:

No western farmers are as prosperous as the farmers of Minnesota. The Federal Reserve Board, October 18, 1928, reports for the state of Minnesota: (1) a steady increase in country bank deposits, since 1921; (2) a continuous decline since 1920 in customers' borrowings from country banks. The special census of the United States Department of Agriculture for 1925, showed a smaller percentage of farms mortgaged in Minnesota than in any of the neighboring states, Wisconsin, Iowa, North Dakota, South Dakota, Nebraska and Montana. The total actual amount loaned on all farm mortgages in Minnesota (as estimated by the Federal Land Bank, October 17, 1928) was approximately \$9,000,000 less in 1928 than in 1925. Applications for Minnesota Federal Land Bank loans, for the nine months from January 1, 1928, to October 1, 1928, were approximately 40 per cent less than applications for the same period in 1926 and in 1927.

Total 1928 cash income of Minnesota farmers (representing income from sales, and not including any crops consumed on the farms) was estimated, October 1, 1928, by the Minneapolis Federal Reserve Board and by F. H. Peavey and Company, as totaling \$405,000,000.

The United States Census Bureau reports the total value of Minnesota manufactured products as \$1,101,855,641. Of this total, the value added by manufacture was \$331,131,642. The corporations of Minnesota, in the year ending June 30, 1928, paid, on their net profits, federal income taxes totalling \$18,247,602.

There are 900,000,000 tons of high grade iron ore left in the known deposits of Minnesota.

Minnesota has one registered motor vehicle for every 3.7 inhabitants. Gasoline tax receipts for 1928 will exceed \$5,000,000.

The American Federation of Labor, for the first six months of 1928, reports only three large cities out of 25 with less unemployment than existed during that period in Minneapolis and St. Paul.

The Minneapolis Civic and Commerce Association survey of 1926 indicated that, in that one year, the people of Minnesota spent \$53,475,460 for amusements.

A study made in August, 1928, by the Minneapolis Journal shows an annual expenditure, in the state, for cosmetics of \$5,000,000.

Minnesota's lack of a large number of very wealthy citizens is offset by the absence of poverty. The United States Census Bureau's 1925 record of paupers per 100,000 population gave the following figures:

Ohio, 114.2; Indiana, 104.6; Illinois, 95.7; Michigan, 83.9; Iowa, 69.8; Wisconsin, 63.8; Minnesota, 41.8.

RESTRAIN YOURSELF

IN these days of flu and colds and sneezing and coughing, it behooves one to follow ordinary health rules. If you must cough or sneeze at church or theater or in any other assemblage, seek to restrain yourself and muffle the eruption behind a handkerchief screen.

We do not know how the flu and cold germ is scattered, but we believe that unrestrained coughing and sneezing certainly must scatter effluvia in the air.

Loudly clearing your air and head and nose passages at the expense of some unfortunate neighbor is not a charitable act. Exercise care in expectorating. Exercise the same care with handkerchiefs and other articles used. You may have the flu germs and by not being careful will infect yourself in other places as well as infecting others.

We are no scientist or doctor on flu, but we believe a few common sense rules of health and cleanliness will do something to check the spread of the disease. Unlike some diseases, one siege of it is no immunity against another attack.

The other day a noted surgeon called a flu conference at Washington to combat the malady and was unable to attend because the germ had picked on him. The conference was hardly a cheerful one and reminded one of the hay fever sufferers' conventions which meet at Duluth and between sneezes discuss their malady.

FULL TIME SENATOR WANTED

A FULL time senator is wanted in Minnesota, says the Murray County Herald editorially and we reprint:

Senator Thomas Schall, who has been hibernating in the National Capitol for the past four years, with re-election only two years away, is again trying to show signs of life.

Every move he makes now, is premeditated. He is bidding for votes.

During all the time the farmers of the northwest were clamoring for relief, his stentorian voice was silent. But, now, Oh, gracious, his every thought is of the farmer. He has even gone so far as to sponsor a bill to appropriate a great sum of money to experiment in making print paper out of corn stalks so that the farmer might get a higher price per bushel for his corn.

The farmer voter will not swallow this eleventh hour support. They want a Senator who will represent them six years out of six, and not one whose only thought of them is when he is up for re-election.

It may be a little early, but we predict that Governor Christanson will be the full time Senator two years from now.

CRITICISM OF YOUTH

CRITICISM of young people is not a modern pastime, as many suppose, says the Litchfield, N. D., Bulletin.

In every age the spirit of youth has run counter to a small but vociferous element of its elders who lack the perception, or the patience, or both, to ascertain what really is working in the noodles of maturing boys and girls. Therefore, instead of trying to help the youngsters work out their multitudes of youthful problems, folks knock, thus following the lines of the least resistance. The young people of today will be running the world tomorrow and we confidently expect an improvement.

It is reported that Dr. A. M. Stimson of the United States public health service has commenced a study of influenza. He should not feel lonely in his endeavors, for every flu sufferer is doing the same thing.

It takes two to make a bootlegger, says the Kansas City Star.

Dame Fashion Smiles

By Grace Jewett Austin

Grace J. Austin.

Among the many bits of advertising tumbling out of her mail, Dame Fashion had to smile over a sentence that started at her: "What the well-dressed car is wearing." It was just one of the little straws that show how important wearing apparel is, not only for men and women and children, but for many inanimate objects as well. Dame Fashion had genuine pleasure in looking at these soft and artistic plaids in woolen lap robes which the "well-dressed car" was supposed to be wearing.

"Dame Fashion," remarked a friend, "I thought about you and your appeals to wear red the other night when I was at a Sunday night supper party. There were eight women present, and seven out of the eight wore red dresses!" The same day Dame Fashion saw what purported to be a representation of the "Last word in Paris fashions," and of the four gowns shown, one was a Worth dress of red wool material trimmed with red beige and blue taffeta—almost patriotic enough for a Goddess of Liberty costume; another was of red broadcloth trimmed with mink, while the third was a lacquer red evening gown of transparent velvet, trimmed with red beads. Another student of fashion has declared in print that there is a vogue for red, but it is expensive and tiring.

As for being "tiring" that is probably a personal feeling on the part of the writer. Red objects and garments are as good as a tonic to Dame Fashion. While to declare a thing "expensive" is an excellent way to make good American citizens seek it out. But just as a color, red should not be so highly priced. Most of the fashions that kept our pioneer ancestry warm were of that color, and for many years the British government put all its soldiery into red coats. Perhaps the expense may come because this nice kind of scarlet fever is quite contagious; that is, a red dress likes to catch a red hat, some red beads, and perhaps earrings, or even a ruby ring!

Dress is becoming such an art that it will probably not be long before more and more of the accepted art terms will be used in connection with gowns. Dame Fashion thought about this one day of late when her eyes rested with pleasure upon a young woman, and it seemed as though she were wearing a costume with a clear "motif," as the music lovers say.

It was a graceful gown of beige crepe, and was worn with hose to match and pumps of shining black patent leather. The wearer's becoming cap-shaped hat was of black velvet, with a shining side ornament. But how was the motif carried into the gown? It sounds simple to describe it, but it was remarkably effective, and unified the whole costume. Down from one shoulder descended a short row of rather small black velvet buttons, and the whole thus gave a restful feeling of completeness.

"But Dame Fashion, I can't always sew buttons on my gowns to match my hat and shoes!" somebody complains. And right there is where the function of costume jewelry comes in. For a necklace of jet beads would have obtained the same effect, though not in such an original manner.

Old Fort Restored

The construction of the original Fort San Carlos de Barrancas, Fla., was begun in 1838 under the direction of Maj. William H. Chase, corps of engineers. A new and more formidable fort has been built behind the original works without interfering with the old fortifications.

Sound Perception

The bureau of standards says that the length of time that a sound will remain perceptible after the source of sound has ceased operating depends on several factors: The volume of the room, the nature of its interior finish and the intensity of the initial sound.

John Hancock's signature

You have heard of him, of course. Everyone has. His signature is the first affixed, the most boldly executed, on the Declaration of Independence.

When that great document was drawn up and ready to sign, there was a pause. It was a moment of grave importance to all present. By placing their signatures on this paper, they would put themselves on record as avowed rebels against the British crown—a hanging offense. At this juncture John Hancock stood up, seized the pen, and wrote his name on the parchment as large and black as he could. By this act he advertised to the world that he stood ready to make any sacrifice—even life itself—in support of his principles and ideals. His signature afforded a permanent record of his good faith.

Advertisers who go to great expense to place before the public printed announcements of their products are offering similar evidences of good faith, equal guarantees of fair dealing. Advertised goods are reputable, dependable, vouched for by manufacturers and dealers who are known and respected. By reading the advertising in this paper you will acquaint yourself with the safest and most economical sources of supply, the products which will serve you best and longest. Advertisements are the surest index to efficient buying. Do not neglect them.

Advertising is the guarantee of good faith

DEMPSEY IS STILL UNDECIDED ABOUT FUTURE PLANS

HE MAY FIGHT,
HE MAY NOT,
OR MAY PROMOTE

MAY HELP BALLYHOO STRIB-
LING-SHARKEY FIGHT OF
FEBRUARY 27

DEMPSEY'S FORMAL STATEMENT
NOW IS THAT HE HAS
NO PLANS

By GEORGE KIRKSEY
((United Press Staff Correspondent)
New York, Jan. 11—Jack Dempsey is still undecided about his future plans.

He may fight—he may not fight. He may be offered Tex Rickard's job—he may not. He may help ballyhoo the Stribling-Sharkey fight scheduled for February 27 at Miami Beach—he may not.

The only thing that Dempsey's formal statement has revealed is that he has no plans.

"Until I know what demands will be made on my time and how much interest I have in the proposed activities in which I was to be interested with Tex Rickard and his associates at Miami Beach, I cannot come to a decision as to whether I will fight again," Dempsey announced.

Dempsey plans to return to Miami Beach and do anything he can to assist Mrs. Rickard and her 18 months old daughter, Maxine.

Dempsey said he would be willing to remain at Miami Beach and help the Madison Square Garden people promote the Stribling-Sharkey fight if they desired his services.

A meeting of the Madison Square Garden corporation's executive committee was scheduled today to determine the status of the proposed Miami Beach bout. If the contracts for the bout were concluded by Rickard before his death, the Garden will go through with the bout, it was said.

Madison Square Garden as yet has made no offer to Dempsey to become an executive of that organization, either as Rickard's successor or in any other capacity, the former champion said.

"I don't kid myself I could fit in Tex's shoes," he said. "If the Garden people make me an offer, I will consider it."

Bamboo "Matthes"

In the Malay archipelago nature seems to have shown the way to make fire. It appears that many fires are started in the jungle by bamboo rubbing together in a high windstorm. Thus the natives use two specially cut pieces of bamboo which, when sawed one against the other, produces fire.

Applied Philosophy

A Chicago university professor finds that 8 a. m. is too early for his class in philosophy to assemble. Here is one philosopher that seems to understand human nature.—Minneapolis Journal.

The Pastor Says:

The best society is not where etiquette is most punctiliously observed, but where the sweetest and wisest people meet.—John Andrew Holmes.

MONARCH OF RING PASSES

Here is the world's greatest boxing promoter, Tex Rickard, as he appeared with those dearest to him, before his death in Miami at the age of 58. He is pictured with his second wife, his first having died in 1925, and his year-old daughter, Maxine.

Lawyer's Home Bombed

John F. Tyrrell, prominent attorney, whose \$27,000 home at Long Beach, Michigan City, Ind., was completely demolished by explosion of what is believed to have been a time bomb. No one was in the house at the time of the blast. Police are seeking clues.

B. H. S. PLAYS AT STAPLES TONIGHT

SECOND STRINGERS TO REPLACE CRIPPLED REGULARS IN CLASH

Brainerd high school will play Staples at Staples tonight. The game which is not a conference battle will start at 8 o'clock.

The team was to leave by automobile at 6 p. m. today. Many supporters will be on hand from Brainerd to see the locals engage in their second game of the year. The team won its first game at Aitkin.

The second string men will replace the majority of the regulars tonight who are on the crippled and sick list.

Job's Many Troubles

During a Scripture lesson a little girl was asked to describe the sufferings of Job. "Job had one trouble after another," she replied. "First he lost all his cattle; then he lost all his children; and then he had to go and live alone in the desert with his wife."

BOSTON ROW ADJOURNED INDEFINITELY

CHARGES OF \$65,000 BRIBE MONEY HURLED OVER SUNDAY SPORTS BILL

WM. G. LYNCH OPENS AN ATTACK ON PRESIDENT EMIL FUCHS

Boston, Jan. 11—(UP)—The finance commission's hearings on charges that City Councillor William G. Lynch demanded \$65,000 bribe money from President Emil Fuchs of the Boston Braves to insure passage by the council of the Sunday sports bill, was adjourned indefinitely today after the accused had assumed the role of accuser.

Lynch testified that, through a personal investigation, he had obtained information which would prove that Fuchs was "a racketeer, blackmailer and blackjacker." He promised to reveal this "proof."

In a long-distance telephone conversation with Boston newspapers, former Assistant U. S. District Attorney John Hawley Clark, Jr., of New York, named by Lynch as his source of information, confirmed reports that he had investigated Judge Fuchs' activities in 1922. At that time, Fuchs was attorney for Ralph A. Day, then federal prohibition director of New York.

Discussing Clark's statement, Fuchs said he had been given a clean bill of health in the case. He denounced Lynch as "a bloody rat" who, he said, was trying to ruin his life.

It was revealed today that Judge Kenesaw Mountain Landis, high commissioner of baseball, will ask for a transcript of the evidence taken before the finance commission and other investigating bodies.

There's a Difference

It always seems on the farm that the sunshine has a different quality on Sunday morning and in summer the birds sing more blithely.—Farm and Fireside.

Adventurers.

There are men who cannot wait for life to come to them. Impelled by an itching foot and a restless heart, they must go afield to meet life.—American Magazine.

Wide Variation

Niagara falls are variously estimated by geologists to be from 5,000 to 50,000 years old, which shows that the age is still a fruitful subject for study.

Sponsor of Plane

Is she proud? Don't ask! This is Mrs. Ira C. Eaker, wife of the chief pilot of the Army plane Question Mark, which shattered all flight endurance records on the Pacific coast. It was Mrs. Eaker who suggested the name for the Question Mark.

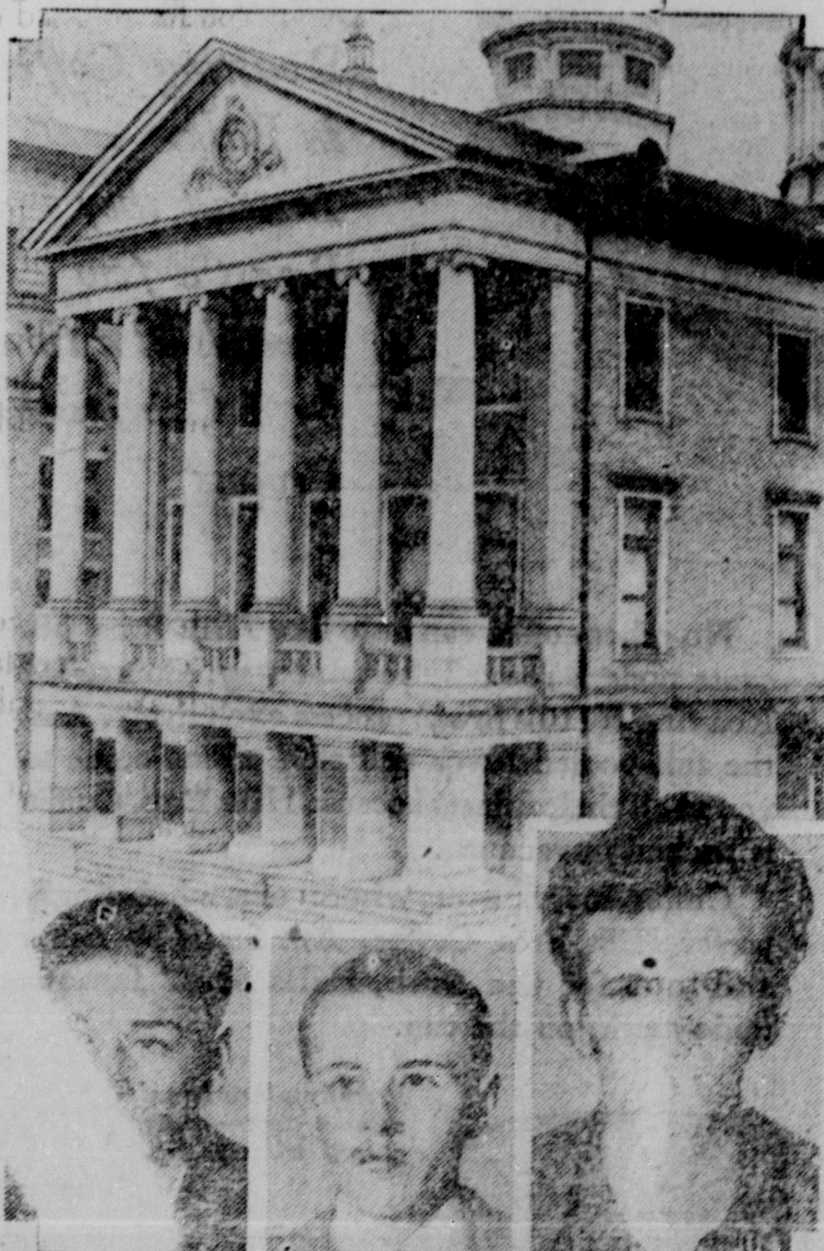

Fame Is Fleeting

There is an old story to the effect that Napoleon in the heyday of his glory wondered if there were a man in the whole world who had not heard of him. So he caused a sort of search to be made, which resulted in finding a wood-chopper in the very suburbs of Paris who had never heard of the great Napoleon.

Hairlike Needles

An English needle factory turns out 600,000,000 needles in a year. The smallest needles are made from a wire that is hardly coarser than a hair and it takes 5,000 of them to weigh an ounce.

"Witch" Death Defendants

Here is the new courthouse in York, Pa., where John Curry (left), John Blymer and Wilbert Hess went on trial for their life for the murder of Nelson D. Rehmyer, wealthy realtor. The trio admitted, in their preliminary examinations, that they had slain Rehmyer because he had "put a spell" upon a relative.

(International Newsreel)

TEX RICKARD RETURNS TO ADOPTED HOME

Bronze casket containing body of Tex Rickard as it arrived in New York, which "Tex" called his home in recent years and where he had won world-wide fame as a boxing promoter before his death in Miami. The casket, covered by a blanket of roses and carnations, was taken from the station to his own Madison Square Garden. Picture rushed to Midwest by wire.

Gray Fox of the Gridiron

By QUIN HALL
BOB ZUPPKE, football mentor at the University of Illinois who is being dubbed the "gray fox of the gridiron"—and with good reason—has formulated a little adage which seems to be responsible for much of his success.

"A fresh scrub is better than a wilted star." That's Bob Zuppke's football adage, and if the proof of the pudding is in the eating then Zupp has good cause to feel that he has struck on something very much worthwhile.

For the second consecutive year the Illini were accorded the Big Ten Conference championship at the close of last fall's campaign in the middle west.

Zupp's team went through a hard schedule, but there were few if any times when the squad showed signs of fatigue at the close of any game. This was made possible through the substitution of fresh players when the players on the field began to show signs of tiring. The sage of Urbana did considerable substituting and as a result a legend sprang up that Illinois had unlimited man power. As a matter of fact, Zupp started the season with a squad of 89 men, and a lot of these were forced out through injury or on

account of ineligibility. The Illini didn't have unlimited man power, but what they had was expertly handled, and the results obtained are now history.

Zuppke, a mild spoken, stocky built fellow who speaks with a soft German accent, has been at the University of Illinois for over 25 years and he is likely to remain at Urbana as long as he cares to stay, which will probably be as long as he cares to engage actively in making football teams.

It was Zupp, of course, who was largely responsible for developing "Red" Grange, the Galloping Ghost of the chalked field. Grange may have had unlimited ability when he reached the Illinois campus but Zupp helped him into a place where he made a record on the gridiron which led to his professional career and the mass of coin which he garnered. Since the days of Grange there have been few, if any, outstanding stars at the University of Illinois. They may have their heroes at Urbana but there is a scarcity of stars.

Captain Nowak, the captain of the '28 squad, and Fritz Humbert, the fullback, were both football heroes at Illinois last fall. They may have been stars outside Urbana but at home they were merely heroes. The rumor seems to be

that Zupp made his last stand as a developer of national football stars when he turned out Red Grange. He did an excellent job in that case. Bob will tell you that you couldn't keep the Iceman from being a star, but still some credit for the stardom of Grange must go.

Getting back to the subject of subs, Zuppke doesn't like to give people the impression that he makes a fetish of substitutions. He'll stick to his regular team as long as they are fit, but the moment they show signs of weakening, in goes a sub. And when it comes to man-power it must be admitted that Illinois has a big registration to draw upon, but there are not so many finished football players among the students. Zuppke makes players out of the material selected, and while he may develop a good team every year, he will tell you that he has no stars. He has some good players and some who are just ordinary. He is willing to take chances often with the ordinary ones when other coaches would pin their faith on their regulars even when they are tiring rapidly. When it comes to stars, Zupp is probably the biggest football star at Urbana. And he'll remain a star as long as he is in the game.

DEMPSEY IS STILL UNDECIDED ABOUT FUTURE PLANS

**HE MAY FIGHT,
HE MAY NOT,
OR MAY PROMOTE**

MAY HELP BALLYHOO STRIBLING-SHARKEY FIGHT OF FEBRUARY 27

DEMPSEY'S FORMAL STATEMENT NOW IS THAT HE HAS NO PLANS

By GEORGE KIRKSEY
(United Press Staff Correspondent)

New York, Jan. 11.—Jack Dempsey is still undecided about his future plans.

He may fight—he may not fight. He may be offered Tex Rickard's job—he may not. He may help ballyhoo the Stribling-Sharkey fight scheduled for February 27 at Miami Beach—he may not.

The only thing that Dempsey's formal statement has revealed is that he has no plans.

HOOVER IN CONFERENCE WITH ROOT

LATTER LONG A LEADER IN THE
REPUBLICAN PARTY, CHAM-
PION OF PEACE

DISCUSSES WITH HIM CANDI-
DATES FOR SECRETARY
OF STATE

Washington, Jan. 11—(UP)—President-Elect Hoover conferred for an hour and a half at breakfast today with Elihu Root, former Secretary of State, long a leader in the republican party and a champion of international peace movements.

Hoover, it is understood, sought Root's opinion as to a secretary of state, discussing with him those he had considered for this important post.

Root, it is known, is not considered for this post himself. He has been in ill health.

The two talked of Hoover's Latin-American tour which Root also made some years ago.

Root was invited to the conference today by Hoover. The former secretary of state was to have presided at Hoover's New York Madison Square Garden campaign rally, but was prevented by illness.

A luncheon engagement of the president-elect today with Sen. Watson of Indiana was cancelled this morning. It was explained that Hoover would talk later with the Indiana senator whose friends are grooming him for the senate leadership, though Hoover senatorial forces are understood to be opposing his elevation. Hoover saw Watson a few days ago.

7 ARMY AIRMEN PLUNGE TO DEATH IN TRANSPORT PLANE

Harrisburg, Pa., Jan. 11—(UP)—Seven army airmen plunged to their death today when a huge army transport plane, a sister ship of the record breaking Question Mark, was wrecked at Royalton, near here.

One man was so critically injured that hospital attaches despaired of his life.

Five of the men in the plane were killed instantly and two died at a hospital.

Lieut. Robert Angell, pilot of the ill-fated ship, died in the Harrisburg hospital. Private Mike Kelley, 23, of Washington, D. C., also died in a hospital here.

The other dead were identified as Privates Samuel P. Jones, Clarence E. Birch and Sergeants Randolph Lehut, Henry Cronin, and McCarthy.

Patrick Conroy, a private in the air service was in a hospital here.

Attaches said there was practically no hope for his recovery.

The crash occurred only a few minutes after the plane had taken off from the airport at Middletown. The ship was enroute to Bolling Field, Washington, D. C.

CHURCH SERVICE BY RADIO; BOYS DISPLACING OFFICERS

Chicago, Jan. 11—(UP)—Boys from 10 to 16 will turn preachers, choir leaders and radio announcers Sunday at the Chicago gospel tabernacle, Paul J. Rader, evangelist and head of radio station WJBT, announced today.

The boys will depose the elders and deacons for the day, conducting all church services and an all day broadcast.

Kenneth Knott, 16, will be the "head boy," assisted by 15 others.

"Boys of today are leaders of tomorrow and we must train them," Rader said.

Seek Evidence of Alleged Radio Monopoly

Washington, Jan. 11—(UP)—Representative Davis, democrat, Tennessee, introduced a resolution today calling upon the federal commission to furnish the attorney general evidence taken by the commission alleging a radio monopoly exists.

Tricky Memory

The habit of forgetfulness causes a heap of unnecessary labor. I once knew a man back East who could seldom remember whether or not he had locked his store when he went home, and, of course, he had to trudge back and try the door, and half the time he could not remember whether he had gone back to try the door tonight or last night. Not much sense in permitting a memory to act so.—Portland Oregonian.

Lamp in Long Voyage

Covered with a thick coating of salt, an Oram lamp has been picked up at a North Wales coast resort. It had been in the water so long that it was a solid brown mass. It bore the identity mark of a place one and one-half miles away. Despite the lamp's appearance it glowed almost as if new when attached to an electric circuit.

FARM BUREAU DINNER TURNS OUT A FEAST; 15 DIFFERENT PIES

Those who attended the Nokay Lake Farm Bureau meeting at the Nokay Lake town hall yesterday noon were of the opinion that from the great variety of food at the luncheon it might certainly have been a food display.

Fifteen different kinds of pies were on the table for sampling after the members concluded a hearty meal of chicken, creamed potatoes, vegetables and side dishes.

County Agent E. G. Roth spoke on "Silos" while County Highway Engineer Walter M. Murphy spoke on "County Roads."

Officers of the club are: President, Joe Pointon; vice president, Fred Bock; Secretary, Sam Thompson; treasurer, Mrs. Fred Bock.

"BAD BOY" IS RECOVERING FROM HEAD OPERATION

Cleveland, O., Jan. 11—(UP)—Arthur Emery, 15, isn't going to be a "bad boy" any more, he declared to

from his cot in a hospital here as he recovered from an operation for the removal of an abscess from his brain—a growth which authorities and doctors said caused evil tendencies in the boy.

In a few days he will be returned to the home of his parents in New

Philadelphia there to recuperate and remain under direction of the federal court. Arthur was arrested some time ago for rifling a postoffice box in New Philadelphia, Ohio, and sentenced to two years in the government training school at Washington. Execution of the sentence was held

up when doctors told authorities that due to the abscess on the brain, he boy was not responsible.

Passion's Impetuosity

A genuine passion is like a mountain stream; it admits of no impediment; it cannot go backward; it must go forward. —Hovee

MILLIONAIRE RETIRES AS HEAD OF YELLOW CAB

John Heris (center), who made millions in the Yellow Cab Company, which he organized and built up in Chicago, retiring as president and chairman of the board. K. L. Ames, Jr. (left), the new president, is only 35 years old. Charles A. McCulloch (right), now largest stockholder, is new chairman.

You won't find a Recipe in your Cookbook Six-Foot for Making Waffles

And you'll never
find Hills Bros
Roasting Coffee
in Bulk.

Instead they
Roast a few
Pounds at a time
by a Continuous
Process

MEASURING and mixing the ingredients—controlling the heat—can be done much more exactly when you make several small waffles than mammoth ones.

As you follow this principle, in cooking all food, so Hills Bros. apply a similar rule to roasting coffee. They roast their coffee a few pounds at a time by a continuous process instead of in bulk. As a result every berry is roasted evenly and the rich flavor of the rare blend is developed to the utmost.

No other coffee can taste like Hills Bros. because none is roasted the same way. Controlled Roasting is Hills Bros.' process exclusively. And the full-bodied flavor and rich aroma come to you in all their fullness because Hills Bros. Coffee is packed in vacuum.

Coffee-lovers everywhere overwhelmingly prefer Hills Bros. Coffee. Ask for it by name and look for the Arab, Hills Bros.' famous trade-mark, on the can.

Fresh from the original
vacuum pack—easily
opened with the key.

HOOVER IN CONFERENCE WITH ROOT

LATTER LONG A LEADER IN THE
REPUBLICAN PARTY, CHAM-
PION OF PEACE

DISCUSSES WITH HIM CANDI-
DATES FOR SECRETARY
OF STATE

Washington, Jan. 11—(UP)—President-Elect Hoover conferred for an hour and a half at breakfast today with Elihu Root, former Secretary of State, long a leader in the republican party and a champion of international peace movements.

Hoover, it is understood, sought Root's opinion as to a secretary of state, discussing with him those he had considered for this important post.

Root, it is known, is not considered for this post himself. He has been in ill health.

The two talked of Hoover's Latin-American tour which Root also made some years ago.

Root was invite d to the conference today by Hoover. The former secretary of state was to have presided at Hoover's New York Madison Square Garden campaign rally, but was prevented by illness.

A luncheon engagement of the president-elect today with Sen. Watson of Indiana was cancelled this morning. It was explained that Hoover would talk later with the Indiana senator whose friends are grooming him for the senate leadership, though Hoover senatorial forces are understood to be opposing his elevation. Hoover saw Watson a few days ago.

7 ARMY AIRMEN PLUNGE TO DEATH IN TRANSPORT PLANE

Harrisburg, Pa., Jan. 11—(UP)—Seven army airmen plunged to their death today when a huge army transport plane, a sister ship of the record breaking Question Mark, was wrecked at Royalton, near here.

One man was so critically injured that hospital attaches despaired of his life.

Five of the men in the plane were killed instantly and two died at a hospital.

Lieut. Robert Angell, pilot of the ill-fated ship, died in the Harrisburg hospital. Private Mike Kelley, 23, of Washington, D. C., also died in a hospital here.

The other dead were identified as Privates Samuel P. Jones, Clarence E. Birch and Sergeants Rudolph Lebutta, Henry Cronin, and McCarthy.

Patrick Conroy, a private in the air service was in a hospital here.

Attaches said there was practically no hope for his recovery.

The crash occurred only a few minutes after the plane had taken off from the army airport at Middletown. The ship was enroute to Bolling Field, Washington, D. C.

CHURCH SERVICE BY RADIO; BOYS DISPLACING OFFICERS

Chicago, Jan. 11—(UP)—Boys from 10 to 16 will turn preachers, choir leaders and radio announcers Sunday at the Chicago gospel tabernacle, Paul J. Rader, evangelist and head of radio station WJBT, announced today.

The boys will depose the elders and deacons for the day, conducting all church services and an all day broadcast.

Kenneth Knott, 16, will be the "head boy," assisted by 15 others.

"Boys of today are leaders of tomorrow and we must train them," Rader said.

Seek Evidence of Alleged Radio Monopoly

Washington, Jan. 11—(UP)—Representative Davis, democrat, Tennessee, introduced a resolution today calling upon the federal commission to furnish the attorney general evidence taken by the commission alleging a radio monopoly exists.

Tricky Memory

The habit of forgetfulness causes a heap of unnecessary labor. I once knew a man back East who could seldom remember whether or not he had locked his store when he went home, and, of course, he had to trudge back and try the door, and half the time he could not remember whether he had gone back to try the door tonight or last night. Not much sense in permitting a memory to act so.—Portland Oregonian.

Lamp in Long Voyage

Covered with a thick coating of salt, an Osram lamp has been picked up at a North Wales coast resort. It had been in the water so long that it was a solid brown mass. It bore the identity mark of a place one and one-half miles away. Despite the lamp's appearance it glowed almost as if new when attached to an electric circuit.

FARM BUREAU DINNER TURNS OUT A FEAST; 15 DIFFERENT PIES

Those who attended the Nokay Lake Farm Bureau meeting at the Nokay Lake town hall yesterday noon were of the opinion that from the great variety of food at the luncheon it might certainly have been a food display.

Fifteen different kinds of pies were on the table for sampling after the members concluded a hearty meal of chicken, creamed potatoes, vegetables and side dishes.

County Agent E. G. Roth spoke on "Silos" while County Highway Engineer Walter M. Murphy spoke on "County Roads."

Officers of the club are: President, Joe Pointon; vice president, Fred Bock; Secretary, Sam Thompson; treasurer, Mrs. Fred Bock.

"BAD BOY" IS RECOVERING FROM HEAD OPERATION

Cleveland, O., Jan. 11—(UP)—Arthur Emery, 15, isn't going to be a "bad boy" any more, he declared to

from his cot in a hospital here as he recovered from an operation for the removal of an abscess from his brain—a growth which authorities and doctors said caused evil tendencies in the boy.

In a few days he will be returned to the home of his parents in New

Philadelphia there to recuperate and remain under direction of the federal court. Arthur was arrested some time ago for rifling a postoffice box in New Philadelphia, Ohio, and sentenced to two years in the government training school at Washington. Execution of the sentence was held

up when doctors told authorities that due to the abscess on the brain, he boy was not responsible.

Passion's Impetuosity

A genuine passion is like a mountain stream; it admits of no impediment; it cannot go backward; it must go forward. Boyce

MILLIONAIRE RETIRES AS HEAD OF YELLOW CAB

John Heris (center), who made millions in the Yellow Cab Company, which he organized and built up in Chicago, retiring as president and chairman of the board. K. L. Ames, Jr. (left), the new president, is only 35 years old. Charles A. McCulloch (right), now largest stockholder, is new chairman.

You won't find
a Recipe in
your Cookbook
for Making

Six-Foot Waffles

And you'll never
find Hills Bros
Roasting Coffee
in Bulk.
Instead they
Roast a few
Pounds at a time
by a Continuous
Process

MEASURING and mixing the ingredients—controlling the heat—can be done much more exactly when you make several small waffles than mammoth ones.

As you follow this principle, in cooking all food, so Hills Bros. apply a similar rule to roasting coffee. They roast their coffee a few pounds at a time by a continuous process instead of in bulk. As a result every berry is roasted evenly and the rich flavor of the rare blend is developed to the utmost.

No other coffee can taste like Hills Bros. because none is roasted the same way. Controlled Roasting is Hills Bros.' process exclusively. And the full-bodied flavor and rich aroma come to you in all their fulness because Hills Bros. Coffee is packed in vacuum.

Coffee-lovers everywhere overwhelmingly prefer Hills Bros. Coffee. Ask for it by name and look for the Arab, Hills Bros.' famous trade-mark, on the can.

Fresh from the original
vacuum pack—easily
opened with the key.

1928 ANNUAL RED CROSS ROLL CALL

Response to Appeal Made in Brainerd and Vicinity is Hearty One

TOTAL OF \$1100 RAISED

City Schools Take Interest, Northern Pacific Shops Are Generous

The Brainerd Chapter American Red Cross, through Mrs. J. A. Thabes, chairman, and G. W. Chadbourne, secretary, makes this report on the recent Roll Call:

The response of the Twelfth Annual Roll Call of the American Red Cross in Brainerd and parts of Crow Wing county, has been so splendid, that the chapter had hoped to make a complete report of the results at this time. This report is complete, for the localities mentioned; as Crossby and Ironton are putting on their Roll Call January 10, 1929. It will be published as soon as the results are reported to this Chapter.

The Roll Call to date follows:

City Schools	
Whittier school	\$ 36.33
Lowell school	28.04
Lincoln school	22.96
Harrison school	22.73
Riverside school	5.23
St. Francis school	5.00
Garfield school	4.68
High school	60.06
City	
Northern Pacific shops	419.55
Remainder of city	391.75
Donation (no name)	4.40
Other Parts of County	
Pequot	46.50
Pequot schools	10.23
Hubert Woman's club	10.00
Nisswa	14.00
Bay Lake ladies aid	10.00
Deerwood Sanitarium	3.00
Merrifield	3.00
A Friend, District 109	1.60
Miss Walz (county nurse)	1.50

The demands have been so great on the National Red Cross and Chapters throughout the country, for disaster relief during the past year; that the local Red Cross Chapter is especially appreciative of the results of our recent Roll Call. The sum raised will also assure the Life Saving and swimming program, sponsored by the Red Cross for the coming summer.

The Brainerd Chapter of the American Red Cross wishes to express its sincere appreciation and thanks to the following organizations and individuals: the principals, teachers and pupils in our city and parochial schools, the consolidated school at Pequot, as well as the many contributors for their cooperation and efforts in making this splendid Roll Call possible. We are more than appreciative of the work and its results in the Northern Pacific shops. It seemed almost like War time efforts.

We also wish to thank the Brainerd Dispatch, the Brainerd Tribune and the Brainerd Journal Press for the continued publicity given to the cause in their papers.

BLOWING, DRIFTING ON SOME ROADS

According to the weekly condition report issued by the State Highway department, several inches of snow have fallen in the northwestern and southeastern portions of the state, and although it is blowing and drifting, the roads are being plowed and will be found open and travelable, except in case of continued heavy snow.

Portions of the paved routes have been reported slippery and motorists are advised to drive cautiously. The detour on Trunk Highway No. 20 has been removed and traffic is now using the new route, although the gravel is somewhat loose.

Detailed reports of conditions on the trunk roads in the Brainerd Lake Region follow:

T. H. No. 2 — Duluth, Brainerd, Wadena, Detroit Lakes and Moorhead—260 miles—Duluth, paved—Carlton, good—Detroit Lakes, fair—Audubon, good—Hawley, paved—Moorhead.

T. H. No. 18—Elk River, Milaca and Brainerd—103 miles—Good.

T. H. No. 19—Brainerd, Walker and Cass Lake—93 miles—Good.

T. H. No. 27 — St. Cloud, Little Falls and Brainerd—62 miles—Paved.

D. H. FULLERTON ADDRESSES P. T. A.

His Topic, "Delinquent Children," Elaborated Before the Whittier Club Tuesday

In Many Cases Delinquency is Result of Environment and of Sad Neglect

D. H. Fullerton, city attorney, in his talk on "Delinquent Children" before the Whittier P. T. A. Tuesday evening, seemed to share Riley's "Hired Man's" faith that "Even bad children, 'pears to me are jes' as good as they can be." After presenting the legal aspects of delinquency, Mr. Fullerton showed conclusively that in an overwhelming majority of the cases under his observation, the child's delinquency was the result of bad environments and neglect.

Following Mr. Fullerton, Miss Lorraine Morrison gave two piano numbers: "Morning," Grieg; "Promenade," Fourdrain. The Grieg number was interpreted with that sympathetic understanding which distinguishes Miss Morrison's playing, and her audience found the exquisite "Promenade" far too brief.

Mr. Fishman, admirably accompanied by Mrs. Louis Knudsen, sang a group of songs: "On the Road to Mandalay," Oley Speaks; Maschell's "Trade Winds," Kerr; "The Little Irish Girl" Lohr. Both Mr. Fishman and Mrs. Knudsen were gamely fighting off threatening attacks of flu, but there was nothing in the performance of either to indicate this.

The program closed with Mrs. Cobb's talk on the "Kellogg Treaty." Briefly she reviewed the events of the past ten years in international diplomatic circles which led up to Mr. Kellogg's proposal, read a few leading editorial comments and then expanded and advocated the treaty itself. As a result, the association wired a plea to the Minnesota senators to vote for the treaty's adoption.

Lucky Lindy Club

The Lucky Lindy club gave a shower in honor of Lois Sagli Holter at the home of Mr. and Mrs. Andrew Sagli of Oak Lawn Wednesday night. There were about 30 present. Mrs. Holter received many pretty and useful gifts.

FREE TUBERCULOSIS CLINIC

Will be Conducted Saturday Morning in Office of County Nurse, Court House

A free tuberculosis clinic will be held Saturday from 10 a. m. to 12 o'clock noon in the office of the county nurse, Miss Caroline Walz, in the court house.

Dr. E. S. Strader, superintendent of the Deerwood Sanitarium will be in charge.

BIDS WANTED

Sealed bids will be received, for sale of express delivery equipment consisting of 2 horses, wts. 1575 and 1420, 2 sets single harness, 2 single sleighs, 2 single wagons, up to Jan. 25, 1929, by American Express Co. Equipment may be seen at McIntosh's Livery Stable after 4:30 P. M. Company reserves right to reject any, and all bids. 185t2p

Notice to Members of Brainerd Livestock Shipping Association
Annual meeting will be held Monday, Jan. 14, at 1 o'clock P. M. in Farmer's room in court house.

H. B. OLSON,
Secretary.

DAIRY INSPECTOR NAMED DELEGATE

Dr. R. A. Hallquist to Attend First Minnesota Conference of Dairy Inspectors

AT MINNEAPOLIS, JANUARY 23

Topics Concerning Milk Supplies, Dairying, Pasteurization to be Considered

Dr. R. A. Hallquist, dairy inspector, has been named by the city council a delegate to the first Minnesota conference of dairy inspectors to be held January 23 at 1 p. m. at the Hotel Nicolet, Minneapolis.

The conference is limited to public officials representing municipalities interested in the supervision of their milk supplies, and to representatives of the State Department of Health, State Dairy and Food Department, State Live Stock Sanitary Board and the divisions of Dairy Husbandry and Veterinary Medicine of the University of Minnesota. The time for the conference is conveniently arranged one day prior to the winter conference of the Minnesota Veterinary Medical Association.

Inasmuch as the problem is related closely to municipalities, this particular conference is being called by the League of Minnesota Municipalities. The subjects to be considered include the following:

- (1) Importance of dairying in Minnesota.
- (2) Health of cattle.
- (3) Dairy farm and pasteurization plant inspection.
- (4) Laboratory control of milk supplies in smaller communities.

These subjects are to be discussed by the delegates from the municipalities. For the purpose of introduction to stimulate exchange of ideas, the respective subjects will be presented by F. O. Johnson, director of inspectors, Dairy and Food Department; Doctors C. P. Fitch and W. L. Boyd, Division of Veterinary Medicine.

University of Minnesota; Dr. P. R. Carter, State Department of Health; and Prof. H. Macy, Division of Dairy Husbandry, University of Minnesota. Open discussion will follow each topic. In the evening there will be a round table discussion for general exchange of ideas.

HISTORICAL BODY REELECTS OFFICERS

S. R. Adair Heads Crow Wing County Historical Society, Mrs. Bronson, Vice President

FINE PROGRAM RENDERED

Assistance of D. A. R. Fledged; Surface Right of Ft. Ripley Site to be Sought

At the first annual meeting of the Crow Wing County Historical society, held last evening at the Farmers' room in the court house, the following named officers were all re-elected:

President—S. R. Adair.
Vice President—Mrs. M. A. Bronson.
Secretary—Mrs. F. W. Wieland.
Treasurer—Mrs. Florence Fleming.
Historians—Mrs. J. M. Hayes and L. B. Kinder.
Directors—Mrs. Flora V. Elder, Mrs. Irma C. Hartley and A. J. Forsythe.

A fine program of old time songs was rendered by the Crow Wing County Historical society quartet, 1929 model, composed of Mrs. C. W. Mahlum, Mrs. A. W. Moulster, William E. Anderson and Gus Walstrom, under the direction of Mrs. Louis Knudsen. Among the songs sung were: "Long, Long Ago," "Believe Me If All Those Endearing Young Charms," "Drink to Me Only With Thine Eyes," "If Winter Comes" and "Four Leaf Clover." A musical dialogue was given by Miss Mary Hughey and Miss Sigrid Stendal, accompanied on the piano by Miss Mraz.

MANY ATTEND SERVICES

Court of Domestic Relations to be Discussed Tonight at Presbyterian Church

The last of the special meetings being conducted in the First Presbyterian church for this week will be held tonight at the church, at 7:45 o'clock.

The subject for tonight will be "a look into the court of domestic relations, the reason for the court, and the remedies for the difficulties." There will be special music. At the meeting last night, Rev. A. G. Patterson said "that while society had rules for our conduct and held us to them, God had rules that were infinitely more just and righteous and more exacting in their obedience." The meetings have advanced this week and have been in interest and increased in attendance.

The meetings will be continued on Sunday morning and will close Sunday evening.

CITIZENS STATE BANK
OF BRAINERD
Oldest and Largest State Bank in Crow Wing Co.

A NEW ALL-AMERICAN
that All America is Acclaiming

The New Oakland All-American Six is winning the praise of All America. It is enjoying the admiration caused by its new and original beauty. By the luxury of its superb new bodies by Fisher. By its truly distinctive style. By its pick-up, power and speed.

And those familiar with its mechanical quality marvel at the manner in which it is built. At such fine car features as an accurately balanced "line of drive" . . . dynamically balanced, counter-weighted crankshaft . . . exclusive patented rubber cushioned engine

mounting . . . dirt-and-weather-proof internal-expanding four-wheel brakes.

Small wonder that a car so wonderfully constructed . . . so brilliantly styled . . . should be winning America's acclaim. Especially since the New All-American is available at such a surprisingly moderate price.

Prices \$1145 to \$1275, f. o. b. factory, plus delivery charges. Enjoy Hydraulic Shock Absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

DAIRY INSPECTOR NAMED DELEGATE

Dr. R. A. Hallquist to Attend First Minnesota Conference of Dairy Inspectors

AT MINNEAPOLIS, JANUARY 23

Topics Concerning Milk Supplies, Dairying, Pasteurization to be Considered

Dr. R. A. Hallquist, dairy inspector, has been named by the city council a delegate to the first Minnesota conference of dairy inspectors to be held January 23 at 1 p. m. at the Hotel Nicolet, Minneapolis.

The conference is limited to public officials representing municipalities interested in the supervision of their milk supplies, and to representatives of the State Department of Health, State Dairy and Food Department, State Live Stock Sanitary Board and the divisions of Dairy Husbandry and Veterinary Medicine of the University of Minnesota. The time for the conference is conveniently arranged one day prior to the winter conference of the Minnesota Veterinary Medical Association.

Inasmuch as the problem is related closely to municipalities, this particular conference is being called by the League of Minnesota Municipalities. The subjects to be considered include the following:

- (1) Importance of dairying in Minnesota.
 - (2) Health of cattle.
 - (3) Dairy farm and pasteurization plant inspection.
 - (4) Laboratory control of milk supplies in smaller communities.
- These subjects are to be discussed by the delegates from the municipalities. For the purpose of introduction to stimulate exchange of ideas, the respective subjects will be presented by P. O. Johnson, director of inspectors, Dairy and Food Department; Doctors C. P. Fitch and W. L. Boyd, Division of Veterinary Medicine.

cine, University of Minnesota: Dr. P. R. Carter, State Department of Health; and Prof. H. Macy, Division of Dairy Husbandry, University of Minnesota. Open discussion will follow each topic. In the evening there will be a round table discussion for general exchange of ideas.

HISTORICAL BODY REELECTS OFFICERS

S. R. Adair Heads Crow Wing County Historical Society, Mrs. Bronson, Vice President

FINE PROGRAM RENDERED

Assistance of D. A. R. Pledged; Surface Right of Ft. Ripley Site to be Sought

At the first annual meeting of the Crow Wing County Historical society, held last evening at the Farmers' room in the court house, the following named officers were all re-elected:

President—S. R. Adair.
Vice President—Mrs. M. A. Bronson.
Secretary—Mrs. F. W. Wieland.
Treasurer—Mrs. Florence Fleming.
Historians—Mrs. J. M. Hayes and L. B. Kinder.
Directors—Mrs. Flora V. Elder, Mrs. Irma C. Hartley and A. J. Forsythe.

A fine program of old time songs was rendered by the Crow Wing County Historical society quartet, 1929 model, composed of Mrs. C. W. Mahlum, Mrs. A. W. Moulster, William E. Anderson and Gus Walstrom, under the direction of Mrs. Louis Knudsen. Among the songs sung were: "Long, Long Ago," "Believe Me If All Those Endearing Young Charms," "Drink to Me Only With Thine Eyes," "If Winter Comes," "Four Leaf Clover." A musical dialogue was given by Miss Mary Hughey and Miss Sigrid Stendal, accompanied on the piano by Miss Mraz.

MANY ATTEND SERVICES

Court of Domestic Relations to be Discussed Tonight at Presby. terian Church

The last of the special meetings being conducted in the First Presbyterian church for this week will be held tonight at the church at 7:45 o'clock.

The subject for tonight will be "a look into the court of domestic relations, the reason for the court, and the remedies for the difficulties." There will be special music. At the meeting last night, Rev. A. G. Patterson said "that while society had rules for our conduct as I held us to them, God had rules that were infinitely more just and righteous and more exacting in their obedience."

The meetings will be continued on Sunday morning and will close Sunday evening.

A NEW ALL-AMERICAN

that All America is Acclaiming

The New Oakland All-American Six is winning the praise of All America. It is enjoying the admiration caused by its new and original beauty. By the luxury of its superb new bodies by Fisher. By its truly distinctive style. By its pick-up, power and speed.

And those familiar with its mechanical quality marvel at the manner in which it is built. At such fine car features as an accurately balanced "line of drive" . . . dynamically balanced, counter-weighted crankshaft . . . exclusive patented rubber cushioned engine

mounting . . . dirt-and-weather-proof internal-expanding four-wheel brakes.

Small wonder that a car so wonderfully constructed . . . so brilliantly styled . . . should be winning America's acclaim. Especially since the New All-American is available at such a surprisingly moderate price.

Prices \$1145 to \$1375, f. o. b. factory, plus delivery charges. Lovejoy Hydraulic Shock Absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Winter Is Time to Control Rats

Food Has Been Plentiful and Farmers Have Been Too Busy to Notice.

In cold weather the marauding rat congregates with his fellows in rubbish heaps, dumps, cellars and other protected places. From these he may be dislodged by a well-planned campaign of eradication.

Winter Campaign. "Rats are not so scattered in cold weather," says C. D. Schwartz, junior biologist at the North Carolina State college. "A campaign of eradication may be made very effective in winter because of this gregarious habit and too, the offensive odor of dead rats is not so noticeable. The rat population may be reduced or eradicated by a definite schedule of systematic poisoning, trapping and starving. It is better, however, if the campaign is undertaken in a large way as by community effort."

Mr. Schwartz says that the wharf rat, as he is commonly known, has been increasing his numbers this summer by leaps and bounds. Food has been plentiful and farm owners have been too busy to notice his depredations. In winter is the time to note this damage and to check it.

What the pest has not eaten, he has carried off or spoiled for human consumption. In addition to being a robber, the rat also is a carrier of disease. One of the most fatal of these is the "Black Plague" or bubonic plague. This disease may be controlled only by the most rigid of quarantines.

Co-Operate to Control. How communities may co-operate to control the rat or to conduct campaigns for his eradication has been made an especial study by Mr. Schwartz. He will be glad to render such assistance as he can, free of charge, anywhere within the state. Those who wish to reduce rodent damage on their farms or in their neighborhood should write Mr. Schwartz.

Painting Farm Machines Is Economical Practice

If farm machinery which is constantly exposed to the weather is to be protected from its ravages, then the surface must be painted to prevent rust. The paint forms a protective film that keeps out the moisture which causes iron to corrode and wood to rot. A coat of paint on the machinery each year is an insurance against rapid deterioration.

Metal preservative paint should be used on all metal. A good primer may be a paint which will prevent rust and any good exterior paint may be used for the finishing coat. Before painting, the surface of the implement should be cleaned of all rust, grease and scale and the iron should be free from frost or moisture. One coat of paint should be allowed to dry thoroughly.

More or Less True The prize dumbbell of the day is the boob who on hearing a girl has a pretty good line thinks it's a clothesline and wants to marry her because he thinks she would do her own washing. —Cincinnati Enquirer.

FLU CREATING PHENOMENAL DEMAND FOR VICKS VAPORUB

Although the flu itself is not so serious as in 1918, authorities stress the importance of taking every possible precaution for fear of the complications which invade the weakened system after a flu-attack. They urge, especially, a prompt treatment of every cold, as colds lower the body resistance and make it easier for flu or pneumonia to get a foothold.

That the public is heeding this warning is indicated by the phenomenal demand for Vick's VapoRub, the famous external treatment which leaped to fame almost overnight during the 1918 epidemic. In spite of tripled capacity, the Vicks laboratories are once more operating night and day, and 375,000 jars are now being produced every 24 hours.

Lords of the Domain Nowadays a man is entitled to life liberty and the right to vote as his wife tells him to do —Atlanta Constitution.

FLU CREATING PHENOMENAL DEMAND FOR VICKS VAPORUB

Although the flu itself is not so serious as in 1918, authorities stress the importance of taking every possible precaution for fear of the complications which invade the weakened system after a flu-attack.

They urge, especially, a prompt treatment of every cold, as colds lower the body resistance and make it easier for flu or pneumonia to get a foothold.

That the public is heeding this warning is indicated by the phenomenal demand for Vicks VapoRub, the famous external treatment which leaped to fame almost overnight during the 1918 epidemic. In spite of tripled capacity, the Vicks laboratories are once more operating night and day, and 375,000 jars are now being produced every 24 hours.

Lords of the Domain

Nowadays a man is entitled to life, liberty and the right to vote as his wife tells him to do — Atlanta Constitution.

Keep youth longer!

cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.
